CREDIT BUILDER LOANS

A Credit Builder Loan is designed specifically to help you establish or improve your credit history. Unlike traditional loans, the money you borrow is held in your savings account while you make monthly payments. Once you finish the program, the funds are released to you, and your positive payment history has been reported to the credit bureaus.

It's a low-risk, high-impact way to strengthen your financial future.

EARN POINTS ON EVERY SWIPE

Every time you use your GCFCU Debit Card or GCFCU Visa Credit Card, you're earning rewards. There's no enrollment process, no minimums, and no complicated tiers to track. Just straightforward points that add up quickly as you go about your routine.

Members love the flexibility—big purchases, small purchases, online shopping, travel, dining, and everyday errands all count. If you're already using your GCFCU cards, you're already earning.

FRAUD & SCAMS

Scammers are getting more believable lately, and it's easy to get caught off guard. Take a moment to read through these scams so you know what to look out for.

Romance Scams

These usually start online. Someone builds a relationship with you, earns your trust, and then asks for money. They often have a "story" ready, an emergency, a sudden bill, or a crisis that needs help right away.

Fake Check Scams

This one feels simple at first: a scammer sends you a check and asks you to deposit it. After you do, they'll push you to send some or all of the money back. They might ask you to return the funds through: Cash, Pre-paid cards or gift cards, or Wire transfers.
